

MEMORY DISORDERS RESEARCH SOCIETY

*Fourth Annual Meeting
Boston, MA, October 22- 23 1992
Lafayette Hotel*

Program

Thursday, October 22

8:00

SYMPOSIUM

Semantic Memory - William Milberg, Chair

David Salmon - "Semantic breakdown in Alzheimer's Disease: A multidimensional scaling analysis of semantic space."

Teresa Blaxton - "Retrieval blocks in anomia: Drawing analogies from normal subjects."

John Hodges - "Breakdown of semantic memory in a case of focal temporal atrophy."

William Milberg - "How can semantic memory break down? A cognitive neuropsychological analysis."

Roz McCarthy - Discussant

10:00

BREAK

10:30

FORUM - Laird Cermak, Chair

"Memory and Aging"- Fergus Craik, Professor of Psychology, Toronto

12:00

LUNCH

1:30

SYMPOSIUM

Cognitive Contributions - Roddy Roediger, Chair

Stephen Grossberg - "Hippocampal control of adaptively timed recognition and reinforcement learning."

Ken Paller - "Are brain potentials produced during implicit memory tests indications of direct priming effects or of conscious recollections?"

Roddy Roediger - "Specificity of operations in perceptual memory."

3:00

BREAK

3:30

SYMPOSIUM

Magnetic Resonance Imaging - Terry Jernigan, Chair

Narinder Kapur - "MRI anatomical profile in herpes simplex encephalitis."

Arne Ostergaard
& Terry Jernigan - "MRI morphometric study of word priming and recognition memory."

Elizabeth Murray - "Uses of MRI in animal research in the neurosciences."

Steven Rao - "Applications of functional MRI for the study of memory and other cognitive processes."

5:30

BUSINESS MEETING

7:00

DINNER - Florence's Restaurant in Boston's North End

Friday, October 23

8:00 PAPER SESSION - Maggie Keane, Chair

8:00 Barbara Wilson - "Errorless learning in the rehabilitation of amnesic patients."

8:20 Harvey Sagar - "Isometric motor learning in early Parkinson's disease."

8:40 Jordan Grafman - "Memory in patients with cerebellar disorders."

9:00 Felicia Huppert - "The relationship between memory impairment, dementia, and AAMI in an elderly population."

9:20 Guiseppe Vallar - "Preserved vocabulary acquisition in Down's syndrome: The role of phonological short-term memory."

9:40 Hans Markowitch - "Combined temporo-frontal damage in a patient with severe and selective retrograde amnesia."

10:00 Break

10:30 SYMPOSIUM

Frontal/Temporal Dissociations - Mary Lou Smith, Chair

Don Stuss - "Organizational strategies in word list learning in patients with focal frontal lesions."

Art Shimamura - "The effects of frontal lobe lesions on tests of memory."

Morris Moscovitch - "Conditional associative learning: Frontal and hippocampal effects."

Ray Kesner - "Animal models of frontal vs. temporal lobe contributions to memory."

12:30 Introduction and Organization of Discussion

12:45 LUNCH

2:30 DISCUSSION

Attention and Memory - Marcel Kinsbourne, Chair

5:00 ADJOURN
