

**MEMORY DISORDERS RESEARCH  
SOCIETY MEETING  
August 3-5, 1995**

**KING'S COLLEGE  
Cambridge**

*WELCOME TO CAMBRIDGE!*

The Meeting will take place in the **Keynes' Hall**, situated in the main block (see map on centre page).

**PROGRAMME**

Wednesday, 2nd August (evening)

- 1730      *Registration* (Room adjacent to Keynes Hall)  
1830      *Dinner* (The Great Hall)  
2100      *Wine and Cheese Reception* (The Saltmarsh Rooms)

Thursday, 3rd August (morning session)

- 0830      *Registration* (Room adjacent to Keynes Hall)

**SYMPOSIUM 1    MEMORY FOR PEOPLE**  
(Organised by **John Hodges** and **Roz McCarthy**)

- 0900      Models of face and name recognition  
**Andy Young** (*University of Cambridge*)  
0930      Neural substrate for famous names and face knowledge:  
Evidence from different temporal lobe lesions  
**Paul Eslinger** (*The Milton S. Hersey Medical Center*)  
1000      The relative roles of frontal/executive deficits and facial memory  
problems in the genesis of Capgras' syndrome.  
**Margaret O'Connor** (*Beth Israel Hospital, Boston*)  
1030      Unbalanced knowledge: Evidence about people from  
schizophrenic patients  
**Roz McCarthy & Keith Laws** (*University of Cambridge*)  
1100      *Tea/Coffee*

**FREE PAPER SESSION**

- 1130      Experimental evidence for amnesia produced by mamillary body lesions  
in the monkey: functional unity of the fornix-mamillary system  
**David Gaffan** (*University of Oxford*)  
1200      Semantic memory in relation to age and severity of pediatric  
head injury  
**Harvey Levin** (*University of Maryland*)  
1230      Recency judgements in schizophrenia  
**Jonathan Foster** (*University of Manchester*)  
1310      *Lunch*

Thursday, 3rd August (afternoon session)

**SYMPOSIUM 2 PROCESS DISSOCIATION**  
(Organised by Laird Cermak)

- 1430 Dissociable processes during implicit task performance by amnesics  
**Laird Cermak** (Boston VA Medical Center)
- 1500 Is amnesic familiarity impaired? Evidence from several modified processes dissociation procedures  
**Andrew Mayes** (Royal Hallamshire Hospital, Sheffield)
- 1530 Using PDP to fractionate recognition memory: Behavioural and ERP studies  
**Michael Rugg** (University of St Andrews)
- 1600 The relationship between episodic and semantic memory processing amnesia  
**Mieke Verfaellie** (Boston VA Medical Center)
- 1630 *Tea/Coffee*
- 1700-1800 **Business Meeting** (Keynes' Hall)
- 1900 *Dinner*

Friday, 4th August (morning session)

**SYMPOSIUM 3 MEMORY REPAIR & COMPENSATION**  
(Organised by Barbara Wilson)

- 0830 Understanding compensatory behaviour  
**Barbara Wilson** (University of Cambridge)
- 0900 Neural transplants  
**Steve Dunnett** (University of Cambridge)
- 0930 Pharmacology and memory enhancement  
**Sue Iversen** (University of Oxford)
- 1000 Aspects of memory rehabilitation  
**Elizabeth Glisky** (University of Arizona)
- 1030 *Tea/Coffee*

Friday, 4th August (morning session cont'd)

**FREE PAPER SESSION**

- 1100 Priming deficits in amnesia: now you see them, now you don't  
**Arne Ostergaard** (University of California)
- 1130 Aspects of transient global amnesia and other transient amnesias  
**Neill Graf-Radford** (Mayo Clinic, Jacksonville)
- 1200 Retrograde and anterograde effects of damage and repair to the septo-hippocampal system in primates  
**Rosalind Ridley** (University of Cambridge)
- 1230 Semantic-episodic memory interactions in semantic dementia  
**Julie Snowden** (Manchester Royal Infirmary)
- 1310 *Lunch*

Friday, 4th August (afternoon session)

**KEYNOTE SPEAKER 1**

- 1430 The evidence for multiple semantic memory systems  
**Elizabeth Warrington** (National Hospital for Neurology & Neurosurgery, London)
- 1520 *Tea/Coffee*

**FREE PAPER SESSION**

- 1550 Do pure retrograde amnesic patients add to the understanding of remote memory organization?  
**Federica Luchelli** (University of Milan)
- 1620 Towards a neuropsychology of false memory  
**Alan Parkin** (University of Sussex)
- 1650 - **Free Time/Sightseeing** (e.g. Punting, Tour of Colleges, etc.)
- 1930 *Elizabethan Banquet & Performing Minstrels*  
(The Great Hall)

HARVEY  
LEVIN

Saturday, 5th August

**KEYNOTE SPEAKER 2**

0830 Functional brain imaging and human memory: a critical review  
**Chris Frith** (*Hammersmith Hospital/Institute of Neurology, London*)

**SYMPOSIUM 4 FRONTAL LOBES AND MEMORY**  
(Organised by **Michael Kopelman**)

0920 The role of the frontal lobes in confabulation and delusions  
**Alan Baddeley** (*University of Cambridge*)

0950 Confabulation is a cognitive and not a frontal disorder  
**Gianfranco Dalla Barba** (*Centre Paul Broca, France*)

1020 Should PET change our views on the frontal lobes and memory?  
**Fergus Craik** (*University of Toronto*)

1050 The frontal lobes play a special role in memory  
**Don Stuss** (*Rotman Institute of Baycrest Center, Toronto*)

1120 The frontal lobes are not-so-special in memory  
**Michael Kopelman** (*St Thomas' Hospital, London*)

1200 **Lunch**

END OF MEETING

**GENERAL INFORMATION**

**AUDIO-VISUAL EQUIPMENT** The following audio-visual equipment has been organised for the Speakers at the Meeting - 35 mm slide projector with infra red remote control, and overhead projector. If further equipment is required for presentations, please contact Dr Narinder Kapur.

**ACCOMMODATION** A block booking has been made for bed and breakfast accommodation in the Keynes Building at King's College. Each of the rooms in the Keynes Building has private bathroom, in a modern building (with lift), which adjoins all dining and meeting rooms. On arrival please check in at the Porter's Lodge.

Squash courts are available at the College for the energetic. Enquire at the Porter's Lodge for further details.

**MEALS** Meals will be served in The Great Hall during the following periods:

Breakfast: From 7.00 - 8.30 a.m.  
Lunch: As per programme  
Dinner: As per programme

Vegetarian meals or special dietary requirements can be catered for. If you have a particular preference, please let us know in advance, if possible.

**COFFEE AND TEA** will be served in the room adjacent to Keynes Hall, where there will also be book displays by publishers, and a notice board for any messages, etc.

**Venue of Conference** The conference will be held in **Keynes' Hall**.

**TELEPHONES AND MESSAGES**

For the majority of the meeting, the conference office will be staffed (☎ 01223-331411; fax 01223-331215).

Should there be any problems however, the Catering Office will be pleased to take messages for delegates (☎ 01223-331215; fax 01223-331194)

There are phonecard and coin-operated telephone boxes, for outgoing calls only, situated near the conference office. Phonecards are on sale in the Porter's Lodge.

**RAIL TRAVEL** There are hourly trains to Cambridge from Liverpool Street and King's Cross stations (including non-stop services from the latter); Delegates arriving at Heathrow Airport - take the tube from the airport to King's Cross station, then a train to Cambridge.

Delegates arriving at Gatwick Airport - travel by train from the airport to Victoria station, then take the tube from the station to King's Cross, then a train to Cambridge. From the railway station there are buses to the City Centre every 7 minutes via the Rail Link service - as the City Centre is pedestrianised, it is a few minutes walk to King's College. The fare is 70p - exact fare to be tendered.

Alternatively, there is a taxi rank outside the station (ten minute drive to King's College) - British Rail Enquiries in Cambridge: ☎ 01223-311999.

**PARKING** No parking is available at King's College, though some maybe available in neighbouring streets.
