April 24-25, 2015

UT Austin Conference on Learning & Memory
Hosted by The Center for Learning and Memory • The University of Texas at Austin

Keynote Speaker
David Anderson
Howard Hughes Medical Institute
California Institute of Technology

Session Speakers

Molecular Approaches to the Study of Learning & Memory

Jeffrey Magee
Janelia Research Campus

Geoffrey Murphy
University of Michigan

Jie Shen
Harvard Medical School

Human Approaches to the Study of Learning & Memory

Brice Kuhl
New York University

Sharon Thompson-Schill
University of Pennsylvania

Nicholas Turk-Browne
Princeton University

Computational Approaches to the Study of Learning & Memory

Nicolas Brunel
University of Chicago

Surya Ganguli
Stanford University

Yael Niv
Princeton University

Systems Approaches to the Study of Learning & Memory

Carol Barnes
University of Arizona

Elizabeth Buffalo
University of Washington

Attila Losonczey
Columbia University

General poster session competition with awards for graduate students and postdoctoral fellows

Four poster abstracts submitted by grad students or postdocs will be selected to be presented as talks
